

The Links at Monck's Landing

A new links style course in cottage country

The Links at Monck's Landing

The Links at Monck's Landing is an engaging nine-hole layout just off Highway 35 in Norland and offers cottagers in the Kawartha region a chance to experience authentic links-style golf. Designed by owner Scott Kuschnerreit, Monck's Landing follows the lay of the land in the traditional Scottish style, with rumped, rolling fairways bordered by fescue. The greens are extensions of the fairways with mature bent grass surfaces and just enough contour to make putting a challenge. A second set of tees provides golfers with a different look if they opt to play 18 holes. The classic stone barn pictured above is a focal point on the course and will eventually include a pub as part of the clubhouse. www.monckslanding.com
